

Maryland Stream Restoration Association
April 3, 2008 Spring Meeting

Please join the Association Membership for an evening of networking with your fellow stream professionals and a thought provoking and lively presentation on a topic of great interest to us all;

Stream Restoration Monitoring Protocols!

Will Harmon, P. G. of Baker Engineering will present the Status of Stream Restoration Monitoring Protocols

Will is an experienced stream designer who leads an organization with more than 100 miles of restoration projects in the ground. His presentation will focus on results of a 5-year study of stream monitoring protocols on North Carolina streams.

The MSRA Leadership has selected a great venue for the Spring Meeting!

Edgars Billiards Club at the Inner Harbor in Baltimore

The preliminary agenda for the evening is as follows:
