

# GUIDELINES FOR NATURAL STREAM CHANNEL DESIGN FOR PENNSYLVANIA WATERWAYS

*Developed by the*  
**Keystone Stream Team**

**March 2007**

# **GUIDELINES FOR NATURAL STREAM CHANNEL DESIGN FOR PENNSYLVANIA WATERWAYS**

*Developed by the  
**Keystone Stream Team***

*Financial support provided by the  
Pennsylvania Department of Environmental Protection  
with funds from Growing Greener and Section 319 of the  
federal Clean Water Act, U.S. Environmental Protection Agency.*

*Assistance Provided by the  
**Alliance for the Chesapeake Bay  
Canaan Valley Institute***

**The Keystone Stream Team welcomes comments on these guidelines.  
Please submit comments to [guidelines@keystonestreamteam.org](mailto:guidelines@keystonestreamteam.org)**

**Electronic copies of this document are available for download at  
<http://www.keystonestreamteam.org>

# TABLE OF CONTENTS

## Page No.

### **Chapter 1: INTRODUCTION**

- Why Develop Guidelines for Natural Stream Channel Design? 1-1
- What is Natural Stream Channel Design? 1-1
- What Makes a Successful Natural Stream Channel Design Project? 1-2
- Scope of the Guidelines 1-3

### **Chapter 2: ASSESSMENT – “READING THE RIVER”**

- Watershed Assessment 2-2
- Preliminary Site Assessment 2-5
- Assessment Methodologies 2-6

### **Chapter 3: MEETING WITH THE WATERSHED COMMUNITY**

- Watershed Community Meeting 3-1
- Points to Address at the Watershed Community Meeting 3-2
- Define and Communicate Your Project’s Objectives 3-5

### **Chapter 4: DATA COLLECTION AND ANALYSIS**

- Recommendations for Data Collection 4-2
- Bankfull and Its Role in Stream Classification 4-5
- Preliminary Conceptual Design 4-6

### **Chapter 5: PERMITTING**

- Pre-Application Meetings 5-1
- State Permits: Phased Watershed Permitting 5-2
- Federal Permits 5-2
- Permit Process for NSCD/FGM Projects Flow Chart 5-4
- NPDES Permits for Discharges of Stormwater for Construction 5-5

### **Chapter 6: CREATING THE FINAL DESIGN**

- Design Flow Chart 6-1
- Channel Dimension, Pattern and Profiles 6-2
- Hydraulic Validation 6-2
- Sediment Transport Validation 6-3
- In-Stream Structures 6-3
- Bank Stabilization 6-4
- Checking Designs 6-4
- Sample Site Plan 6-5
- Sample Plan View and Cross-Section 6-5

### **Chapter 7: SELECTING A QUALIFIED CONSULTANT**

- Understanding Available Options 7-1
- Disclosing Project Information 7-3
- Instructions to Prospective Consultants/Contractors 7-3
- Interviews 7-5

	<u>Page No.</u>
<b>Chapter 8: CONSTRUCTION CONSIDERATIONS</b>	
■ Background Information	8-1
■ Pre-Construction Meetings	8-1
■ Selecting Construction Periods and Locations	8-2
■ Choice of Equipment	8-3
■ Erosion and Sediment Control	8-3
■ Supervising Construction	8-5
<b>Chapter 9: MONITORING: PRE- and POST- CONSTRUCTION</b>	
■ Monitoring Recommendations	9-2
<b>APPENDIX I: HELPFUL TOOLS AND DATA FORMS</b>	I
<b>APPENDIX II: RESOURCE INFORMATION</b>	II
<b>APPENDIX III: PERMIT GUIDELINES FOR PHASED PROJECTS</b>	III
<b>APPENDIX IV: COSTS RANGES GUIDELINES</b>	IV
<b>APPENDIX V: GLOSSARY</b>	V
